iPads/iPods in Education

Friday, January 13, 2012

Session 1: 9:00 am - 12:00 pm

Session 2: 1:00 pm - 4:30 pm

Live presentation at Anschutz Medical Campus

Broadcasting to 5 distance locations

From iTunes and volume purchasing to selecting and implementing apps in the classroom; spend a half or full day getting to know the implications and applications of iPads/iPods in Education.

Session 1: iPad & iPod Management in Education

- Corey Carson, Systems Engineer, Apple Education

This session will focus on the technical aspects of using the iPad and iPod in education. From out-of-the-box configuration to purchasing apps to sync strategies, this presentation will help you better understand what workflows will work best for you in your environment.

Session 2: Implementing the iPad & iPod in the Educational Environment

- Maureen Melonis, MNS, CCC-SLP

This session is designed for those who have a basic understanding of iPad operation but want to learn more about how to implement it. The presenter will share different apps organized by category of intervention (apps for speech therapy, behavior, math, memory, etc). Participants will learn how to evaluate apps that they may be considering and the importance of matching features of the app to the needs of the child. The session will primarily focus on apps for children birth to twenty-one but obvious applications for adults with disabilities will exist. Participants will be encouraged to share their own implementation stories of successes and challenges in using the iPad.

iPads & iPods in Education
****Register by December 13, 2011 and Save!****
Registration Closes January 6, 2012

Name _____ Discipline/Title _____
